EDUCATION

University of Texas at Arlington **January 2022 – Present**
Master of Science in Information Systems. **GPA: 4.0/4.0** **Arlington, Texas**
Course Work: Python Programming, Data warehouse & Business Intel, Data Mining, Project Management, Adv methods for Analytics.

Savitribai Phule Pune University, India **July 2015 – June 2019**
Bachelor of Engineering in Computer Engineering. **GPA: 8.05/10.0** **Pune, India**
Course Work: Machine Learning, Database Systems, Computer Architecture, OOP, Operating Systems.

SKILLS

Programming Languages: Python (scikit-learn, Pandas, NumPy, SciPy, Matplotlib), C++, Java, SQL, HTML, CSS
Tech/OS: Django, PyCharm, Linux, Bootstrap, Tableau, VS Code, OpenCV, GitHub, Windows, Microsoft Office, MacOS
Online courses: Data Visualization with Tableau Specialization, Data Structures & Algorithms in Python, Introduction to Data Science in Python, SQL Bootcamp

WORK EXPERIENCE

Functional Consultant, Icertis Solution India Pvt Ltd, Pune **June 2021 – October 2021**

- Led in implementation and setup of ICI (Icertis Contract Intelligence) product for US clients.
- Designed and built database objects – tables, views, cursors, triggers, and functions as per customer requirements.
- Created and loaded packages to update the data on SQL servers using fine-tuned and optimized procedures.
- Coordinated with 2 Team Leaders and 3 Software Engineers to conduct beta-testing of client's website userinterface; analyzed user's feedback and reported bugs, optimizing functioning by 80%.

Software Engineer, Yardi Software India Pvt Ltd, Pune **August 2019 – June 2021**

- Maintained Yardi's real estate management database of nearly 20,000 customers by developing complex SQLscripts to fix anomalies and achieve high quality consistent database.
- Leveraged industry tools such as SQL Columnar, SSRS, YSR Reports to design reports to support sales metrics.
- Hands-on experience in ETL and SQL profiler.
- Collaborated prominently towards CRM lifecycle of the product to test and reproduce client reported issues.
- Tackled various issues with data – data corruption, data assimilation from multiple sources catering to variousclients.
- Designed BI dashboards and tiles for Commercial Leasing Manager product of Yardi Voyager Plus.

PROJECTS

AtliQ Hospitality Analysis PowerBI | Microsoft Power BI, DAX formulas

- To meet business needs, collaborated with business users, and built a dashboard in Power BI to analyze three months sales data of different AtliQ hotels across four different cities.
- Created a data model and KPI's for AtliQ Hospitality as they are losing their market share and revenue.
- By conducting quality assurance checks, I was able to generate and deliver quality reports to customers, resulting in a 65% increase in customer satisfaction.

Credit Risk Prediction | Python, scikit-learn, Matplotlib, Pandas

- Leveraged classifier algorithms such as Decision Trees, Random Forests, Naive Bayes, Support VectorMachines, KNN.
- Predicted credit risk based on marital status, gains, loss, employment, achieving F1-Score of 0.66.

ATM (Automated Teller Machine) Surveillance | Java, OpenCV, and SQL

- Coordinated with a team of 2 developers to implement a system to monitor movements in restricted areasusing CCTV camera.
- Formed an anti-theft module triggering an alarm and notifying security personnel through message in anattempt of theft and false access.
- Developed a function to ensure transaction of money happened only when user's face was completely visible.

Crime Reporting System | Python 3, MySQL, Pandas, and Matplotlib

- Led a team of 3 to design an application to keep crime reports safe, secure and yield significant insights fromdata.
- Coded an entry page to Login/Signup, thereby preventing unauthorized access.

EXTRA-CURRICULAR ACTIVITIES

- Journal Publication, Trajectory Movement Detection on ATM Surveillance in IRJET – 2019.
- Managed a team of 5 to organize a coding competition in an event called "Techlligent" during undergrad.
- Volunteered in Training and Placement cell and Cultural Committee in UG for 3 years.
